For: METHOD FOR CALIBRATING A TOOL CENTER POINT OF TOOLS
FOR INDUSTRIAL ROBOTS

Commissioner for Patents
United States Patent and Trademark Office
P. O. Box 1450
Alexandria, Virginia 22313-1450

COMMUNICATION

Sir:

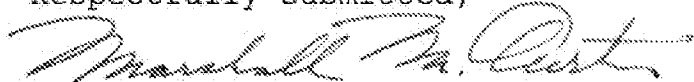

In the response filed July 29, 2009, it was pointed out that while an executed declaration was required, an executed declaration in the German language had, in fact, been filed with the original application papers which should be acceptable. No indication of the previous response being held in any way non-responsive has been received.

For benefit of the record, an English language declaration duly executed by the inventors is attached hereto and it is respectfully requested that the same be made of record in the official file of the application. Since an executed declaration, albeit in the German language, was submitted with the originally filed application papers and no further requirement or clarification of the previous requirement has been made,

no fee should be required for the submission of this additional English language declaration.

However, if an extension of time is required for this response to be considered as being timely filed, a conditional petition is hereby made for such extension of time. Please charge any deficiencies in fees and credit any overpayment of fees to Attorney's Deposit Account No. 50-2041.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "Marshall M. Curtis", written in a cursive style.

Marshall M. Curtis
Reg. No. 33,138
